

Upper Room COGIC Professional Network

Executive Board One Pager

Prepared by: Brandon J. Fonville & Rufus Pritchett Jr.

For: Elder Anthony Wilson / Executive Board

Live site: <https://upperroomnetwork.netlify.app/>

Purpose

The Upper Room COGIC Professional Network is a **professional and ministry directory** for our church. It helps members discover one another by career, specialty, and how they are available to serve, whether through mentorship, trusted services, or fellowship, within a space that reflects Upper Room's identity and values.

Who can join

Members of the Upper Room church family who wish to share their professional gifts in a respectful, leadership approved way. Participation is by **application**, not open self publishing.

Approval flow

1. A person submits a **Join** application on the website.
2. Designated leadership (or coordinators) **review** the application in a password protected admin area.
3. Only **approved** profiles are published to the public directory.
4. Visitors may **search**, view profiles, and request a **privacy minded introduction**, so connections stay intentional without broadcasting private contact details.

Who is on the site today?

Five real founding members (no placeholders):

Member	Notes
Bishop Patrick L. Wooden Sr.	Pastoral leadership
Clarence "Rocky" Raeford	Founding member
Brandon J. Fonville & Rufus Pritchett Jr.	Founding member / presenter
Damian Little	HVAC / Temperature Pros LLC

The site uses Upper Room's **warm brown and cream** branding and the **official church logo**.

Status

The directory is **live** with this founding group. We are **waiting on leadership approval** before inviting additional members, so growth remains under board guidance.

What we need from the board?

1. **Affirm** the network as an Upper Room ministry resource
2. **Designate** who should review Join applications
3. **Approve** a careful next step to invite more members under your oversight

Admin access is password protected and shared only with people the board designates. The admin password is "upperroomcogic".
